We are committed to the provision of high-quality education in the context of the Christian values of service, thankfulness and humility where individuals are valued, aspirations are high, hope is nurtured, and talents released.

A Scheme of Delegation for each Academy sets out the responsibilities of the Local Governing Body and Principal. The Principal of each Academy is responsible for the implementation of all policies of the Academy Trust.

Open Academy Homework Policy

Purpose

- To promote independent and autonomous learning

Objectives

- Each subject teacher will set homework regularly and frequently. The nature of the work will vary between year groups, different classes, and topics of study.
- Teachers will ensure that homework is differentiated, structured and easily accessible.
- Homework will set at a point in the lesson where there is sufficient time for students to record the homework, this will not be at the end of the lesson. Teachers will ensure that all instructions concerning homework are clear to everyone in the class and sufficient time is allowed for the student to make notes if appropriate.
- Teachers will set homework that is useful and relevant
- Teachers will record all homework set on Microsoft Teams.
- Teachers will record submission of homework on Microsoft Teams.
- Teachers will allow enough time over the course of a week for students to complete homework
- Homework will be marked, and students will be provided with feedback

The role of parents and carers

Parents undoubtedly have an important role to play in supporting and encouraging their child with their homework. Parents can support their child with homework by checking deadlines and content on Microsoft Teams. Homework is given to their child and is a way of teachers establishing students' understanding therefore it is not expected that Parents should do their child's homework. Pupils to attend learning hub should they require additional support.

Teachers' focus

We have established two key criteria for judging homework: its purpose and its quality. Homework should form an integral part of a scheme of work, and its value should be made explicit to students.

Systems and Management

SLT links and Heads of Faculty have a responsibility to ensure that homework is being set and marked within their faculty and that teachers' records are robust enough to provide accurate homework grades.

Homework will be set as soon as possible in the allocated week. Students will be given a minimum of 48 hours to complete this work. Homework will be set, submitted, and marked via Teams using Rubrics and the 1-4 scale. This will indicate how well students have engaged in learning in the classroom and will provide a next step for improvement.

The homework set is proportionate to the number of timetabled lessons in each subject:

- The amount and frequency of homework should increase as a student gets older
- Homework should not cause undue stress on the student, family or the teacher
- It will not necessarily come in the form of a written task
- Homework will be set by the plan set by Senior leaders.
- Homework needs to be set at a point in the lesson when sufficient time can be given to addressing any concerns or explanation

Homework will arise out of the demands of the course and may take the form of:

- Learning notes/diagrams

Marking

It is an expectation that staff should mark any homework that is returned by students.

This will help to give the whole process of setting and completing homework a higher profile and status. It will also reinforce the message that homework is an important and valued aspect of school life. Marking homework is a way of keeping track of who has completed homework, and of giving student feedback on how well they have met the objectives of the work. Additionally, marking of Homework informs future planning.
