

Health and Social Care

Level 3

Bridging Work

Summer 2020

Please complete all the questions below. They must be answered in full paragraphs with evidence of referenced research.

1. Should all healthcare be free at point of use? Why?
2. How should the government prioritise healthcare spending?
3. Why do people make bad choices about health and well-being?
4. Should addiction be classified as an illness?
5. Write a short story based on a health issue – it could be Covid 19.

Key words

Nature – genetic inheritance and other biological factors

Nurture – the influence of external factors after conception

Positive reinforcement – the behaviour is repeated because of personal satisfaction

Dysfunctional family – a family that is not providing all the support and benefits associated with being in a family
